

AMERICAN ANGLER

2013 FISHING

# A HERITAGE OF CRAFTSMANSHIP

It all started in 1923 when John Smoker produced his first redwood fishing boats in New Paris, IN. In 1964 the Smoker family led the way with advancements in aluminum fishing boat hulls. Now, four generations and nearly 50 years later, SmokerCraft is defined by its passion for innovation and quality.

### TWICE BAKED PAINTED HULLS

American Angler full painted hulls provide showroom looks designed to last for years.

### MACHINE FORMED RIBS\*

Our unique machine formed ribs are stronger and more flexible than the two-ply aluminum used by many competitors.

### TORSION BEAM CONSTRUCTION\*

Instead of the flat I-Beams that you find in many boats, American Angler uses our exclusive Torsion Beam Construction (TBC) stringer system for exceptional strength and shock absorption.

### ALL-WELDED CONSTRUCTION

Every American Angler series boat offers the toughness and reliability of all-welded marine-grade aluminum construction that's backed by a lifetime warranty.

### INJECTED FOAM FLOTATION

American Angler models feature injected foam, not poured between the floor and hull - filling all air pockets. This provides greater strength and buoyancy and reduces noise.

# OSPREY SERIES

# LODGE/PRO LODGE SERIES

## Osprey 162/172

### EXPLORE THE WATER.

The Osprey is truly at the top of its class with its all welded 17 Degree vee bottom that delivers a solid, yet soft and dry ride in choppy water. The Osprey series is loaded with standard equipment like in-floor removable fish box, fisherman's top and large bow livewell. The Osprey is one boat that can serve the needs of the entire family. Fishing in the early morning, tubing and sight-seeing in the afternoon sun, let the Osprey show you how to make the most of your day on the water.
